CIRCULAR

Subject: Compliance with Uploading of Video Clips during Vehicle Emission Testing on PUC Software Version 2.0

This is in reference to earlier Circular No. F. No. 23(1490)/CAP/TPT/PCD/2018/1079/106115 dated 22.11.2023 regarding the introduction of PUC Software Version 2.0 developed by NIC, wherein it was directed that a short video clip be captured and uploaded during emission testing to verify proper conduct of the test and the physical presence of the vehicle at the PUC Centre.

However, during inspections of various PUC Centres, it has been routinely observed that the video clips of vehicle emission testing are not being uploaded in the prescribed format on the VAHAN portal by a few PUC Centres.

It has further been noticed that, in many cases, the video recordings are inadequate. All PUC Centres are hereby once again directed to ensure that the video recordings clearly:

- Capture the vehicle registration number (license plate),
- Show the surrounding area to confirm the physical presence of the vehicle at the PUC Centre, and
- Clearly depict the proper insertion of the probe into the exhaust pipe during emission testing.

Non-compliance with the above instructions shall be viewed seriously, and strict action shall be initiated against the defaulting PUC Centres in accordance with the provisions of the Delhi Motor Vehicles Rules, 1993, and other applicable Rules.

This issue with the prior approval of the competent authority.
